- We're the direct-to-customer provider of premium NZI products, a name that's been around for 150 years.
- Like NZI, we're owned by IAG New Zealand Limited, which has a Standard and Floors credit rating<sup>1</sup> of AA-, which means we have a "Very Strong" claim paying ability.
- While we're protecting the present, we're also concerned for the future. We support Sustainable Coastlines, a non-profit organisation working hard to get our coastlines in better shape.
- We offer generous discounts when you insure two or more NZI products with us, plus you may also be eligible for no claims, over 50's, hybrid cars and low mileage discounts.

## Why Lantern?

**Is your current policy type still right for you?**  
Below the checklist is a guide to help you compare the benefits of our four contents policies. You'll notice that Supersurance sits at the 'economy' end of the scale, while Distinction is our premium contents policy.

Please note that if you have high-value items that exceed the limits shown – particularly things like jewellery, camera gear and watercraft – you need to ensure they are covered as 'specified items' in your policy.

Our checklist over the page gives indicative values of typical household items to help you quickly estimate what contents cover you need.

## Use our contents checklist to make sure your cover is sufficient

## Do you know the value of your contents now?

Have you made any significant purchases in the past year – a new TV, computer or mobile phone? Maybe you've upgraded some furniture, bought new sports gear or added some jewellery to your collection. All these purchases add up, plus with inflation and the GST increase it's easy to see how the amount you're covered for can soon be insufficient. And that could be a big problem should the unexpected happen...
